

How to Calculate – Shingle

How to calculate the amount of shingles needed
Example – Area to cover: 1,000 sq. ft.

MAIBEC SHINGLES

For 5" exposure, add 3% to the area to cover.

1,000 sq. ft. x 1.03 = 1,030 sq. ft.

1 box = 25 sq. ft.

1,030 sq. ft. = 41 boxes
