# How to Calculate - Shingle 

How to calculate the amount of shingles needed Example - Area to cover: 1,000 sq. ft.
maibec Shingles
For $5^{"}$ exposure, add $3 \%$ to the area to cover.
1,000 sq. ft. $\times 1.03=1,030$ sq. ft.
1 box $=25$ sq. ft.
1,030 sq. ft. $=41$ boxes
