General Specifications

SPECIES:

- Western Red Cedar – *Thuja plicata*

MANUFACTURING

- Stellite-tipped blades: minimize raised grain
- Kiln-dried to 12% - 16% moisture content

PACKAGING AND COVERAGE

- Each box covers around 25 sq. ft at 7" exposure.

AVAILABLE COLOURS

- Maibec solid stain colour chart
- Semi-transparent Spice series
- Unlimited choice of solid colours thanks to our TrueMatch® system
- H2BO water-based bleaching stain
- StaveTone

FACTORY-STAINING

- Every shingle is factory-coated on all sides in a controlled environment for maximum stain absorption and retention. This also provides increased protection from the damaging effects of the sun and the elements.

- Following the stain application, the shingles are sent through a state of the art drier for curing. The product of European technology, this drier cures the stain from the inside out. The shingles are then cooled down and packaged. This unique system increases the durability of the product once installed.
- Low-volatile organic compounds (VOCs) water-based stains.

For exterior use only.

* DIMENSIONS MAY VARY DUE TO KILN-DRYING.
