General Specifications

SPECIES

- Western Red cedar siding / Knotty;
- White cedar available on request.

DRYING SYSTEM

- Homogenization (re-balanced wood for superior stability);
- Moisture content between 10 and 14%.

PACKAGING

- Random lengths 4' to 16' in bundles.

AVAILABLE COLOURS

Textured finish

- Maibec Natural tones;
- Maibec solid stain colour chart;
- Unlimited choice of solid colours, with our TrueMatch® system;
- Light Gray and Dark Gray H2BO;
- Natural (Unstained).

Brushed-face finish

- Light Gray and Dark Gray H2BO;
- Natural (Unstained).

FACTORY-STAINING

- Trim is factory-coated on all six sides in a controlled environment for maximum stain absorption and retention. This also provides increased protection from the damaging effects of the sun and the elements;
- A primer is applied on light and medium shades to block tannins. Dark shades do not require any primer as tannins are not noticeable;
- Low-volatile organic compounds (VOCs) water-based paints;
- Application of 2 coats of paint with a continuous flow process. Upper build for optimal colour and protection;

- The H2BO stain has a low environmental impact and is applied and baked in the factory for better stability.

For exterior use only.
