General Specifications

SPECIES

- Western Red cedar siding / Sound tight knot.

DRYING SYSTEM

- Homogenization (re-balanced wood for superior stability);
- Moisture content between 10 and 14%.

PACKAGING

- Random lengths 4' to 16' in bundles.

COMPLEMENTARY ACCESSORIES

- Ventilation and drainage accessories;
- Metal corners;
- Finishing trims.

AVAILABLE COLOURS

Textured finish

- Maibec Natural tones;
- Maibec solid stain colour chart;
- Light Gray and Dark Gray H2B0;
- Natural (Unstained);
- Unlimited choice of solid colours, with our TrueMatch® system.

Brushed-face finish

- Light Gray and Dark Gray H2B0;
- Natural (Unstained).

MANUFACTURING

- em+ jointing system on 4 sides for an installation 30% faster and reduced waste.

FACTORY-STAINING

- Trim is factory-coated on all six sides in a controlled environment for maximum stain absorption and retention. This also provides increased protection from the damaging effects of the sun and the elements;
- A primer is applied on light and medium shades to block tannins. Dark shades do not require any primer as tannins are not noticeable;
- Application of 2 coats of paint with a continuous flow process. Upper build for optimal colour and protection;

- 100% acrylic paint, film-forming and flexible. Ideal for following the wood's movements and preventing cracking;
- The H2B0 stain has a low environmental impact and is applied and baked in the factory for better stability.

WARRANTY* - RED CEDAR SIDING**

50 YEARS against wood decay
15 YEARS on solid stain 2 coats
8 YEARS on natural tones stain
50 YEARS against wood decay

5 YEARS on labour
5 YEARS on labour

H2B0 - Textured and Brushed face
